LOAD SURVEY SHEET

In an effort to provide you with the most reliable service possible, we ask that you complete this form. Information given below will be used to determine the size of the transformer installed and the size of the conductor (wire) used. Indicate only the equipment that you plan on installing now or in the near future. If you add any equipment in the distant future, remember to call your Cooperative to let us know. Changes can be made at that time if necessary.
