

203.3 Residential 100% Renewable Rider

A. Availability

Available to all customers who are eligible for the standard Residential rate.

This rate is applicable to service at one point of delivery and measured through one meter. This rate is not available for temporary, shared, or resale service.

The member must agree to take service under this rider for a minimum period of twelve months. Termination of service at the member's request prior to the end of the twelve month period shall result in the member being billed an early termination fee of \$25.

B. Character of Service

See standard Residential rate. This rate shall be based on the cost of 100% renewable solar and wind energy. The standard Residential rate is based on a blend of renewable and other generation resources. This rate is based on the cooperative's power supplier purchasing 100% of its resources from wind and solar.

Once the cooperative has added enough customers under this tariff so they constitute 100% of the available renewable resources supplied by the cooperative's power supplier, this program will close and not be offered to additional members.

Any Renewable Energy Credits (RECs) shall remain the property of the cooperative and/or its power supplier.

C. Rate

All rates and charges as defined in the standard Residential rate and in addition, the following charges:

3. SPEC Distribution System Charge:

Customer Charge:	no additional charges
Distribution Charge:	no additional charges

2. Added Cost of Electricity from STEC:

Added Cost of Electricity Charge: \$0.02 per kWh
This charge is in addition to the cost of electricity charge in the standard Residential rate.

G. *The Added Cost of Electricity Charge shall be multiplied by the member's "100% Renewable Energy kWhs" each month. The member may select any percentage, in increments of 25%, (not exceeding 100%) of his or her total monthly kWh to be 100% renewable. This percentage shall be multiplied monthly by the member's total monthly kWh to determine the "100% Renewable Energy kWhs".*

H. Billing Adjustments

As described in the standard Residential rate.

I. Minimum Monthly Charge

As described in the standard Residential rate.

J. Conditions of Service

As described in the standard Residential rate.

H. Terms of Payment

As described in the standard Residential rate.
